CHILDREN'S CHOICES

2019 Reading List

What Is the Children's Choices Reading List?

Each year, 12,500 school children from different regions of the United States read newly published children's and young adults' trade books and vote for the ones they like best. These Children's Choices, selected from more than 900 titles, can be counted on as books children truly enjoy reading. This list, a project cosponsored by the International Literacy Association (ILA) and the Children's Book Council (CBC), is designed for use not only by educators, librarians and media specialists, administrators, and booksellers but also by families and caregivers—and everyone who wishes to encourage young people to read for pleasure.
